

**Hanze University** of applied science in **Groningen** is a 4 year bachelor programme which leads to the title bachelor of Health. We are part of the faculty healthcare sciences. The prerequisites are HAVO or MBO diploma (in the dutch system) and the students have to undertake a voice and articulation screening. Our yearly intake is about 100 students; about 25% of them come from Germany.

We have 2 years of basic speech and language themes, in the second part of the study students do there thesis and clinical practicum. We follow the Dutch Competence system as final terms for the students.

We have a special programme for students coming from the university of Groningen, department language Studies. They follow a route towards a bachelor/masterdegree SLP (Speech and Language Pathology).
