

Lessius University College (Antwerp) Department of Speech Language Therapy and Audiology

Presentation of the University College and the faculty:

Lessius offers multiple degree and tailor-made programmes in the fields of Engineering, Business and Communication Studies, Languages and Journalism, Psychology, Technology, Design, Education, Nursing, Speech Language Therapy and Audiology.

We are located on three campuses in the city of Antwerp and two campuses in and around the city of Mechelen.

The department runs a professional bachelor in Speech Language Therapy and Audiology. This BA starts with a common two-year programme, in the third year the final choice has to be made between a final specialisation in Speech Language Therapy or in Audiology. Both bachelors consist of a 3 year programme with 60 ECTS each year.

The department has international experience for many years. It coordinates an intensive Programme (www.lessius.eu/ip) with European and non-European SLT-partners. Furthermore, the department coordinates a European teaching module 'European Clinical Specialisation on Fluency and Fluency Disorders (ECSF)' (www.ecsf.eu). Last but not least the department runs an English programme of 30 ECTS for SLT-students from around the world (www.lessius.eu/slt).

The Department also offers a postgraduate in 'voice' .

Prerequisites to be able to study in the programme and yearly intake:

A secondary school certificate is required to be admitted to the first year. Foreign candidates must possess an official equivalence with this Flemish diploma of secondary (or higher) education. There is no entrance exam, but there is a voice and articulation screening.

Other information:

We are member of the K.U.Leuven Association, a framework of in-depth cooperation between the University of Leuven and 12 university colleges. The K.U.Leuven Association is the largest of the 5 Flemish university associations that were created by the Flemish Government to meet the challenges of the European Higher Education Area.
